Charolais' First Breeders Sale In Arkansas June 18

A unique chapter in the history of the Charolais breed will unfold June 17 and 18 as the 1st Breeder's Sale gets underway at Victoria, Ark. Hosted by Wesson Charolais and managed by Buzz Garey, the Breeder's Sale will consist of fifty head of the finest Charolais breeding cattle ever assembled under one tent from 22 breeders representing twelve states across the nation. These hand-picked Charolais cattle which will include National Champions are required to have been bred by the consignor and sired by the consignor's own herd sire, therefore making this event a breeder's sale.

The Oklahoma Charolais Breeders Association has announced an "Association Consignment Sale," formerly the Lincoln Plaza Sale, will be held Saturday, June 4, 1977. The sale will be held in the new sale barn at Matt Kinslow's 5K Ranch, 40 miles east of Oklahoma City and 2 miles south of I-40 on Hwy. 99, near Seminole, Oklahoma.

The offering consists of 75 high quality Charolais including 25 full French females and 5 French and Polled herd sires. Also selling are 35 top domestic Charolais including several fullbloods and 6 outstanding polled females, mostly bred sisters.

Several outstanding performance tested commercial bulls will also sell. The sale features consignments from the leading herds in Oklahoma and the nation.

Auctioneer will be George Mores. Sale headquarters is the Village Inn and Holiday Inn, Shawnee, Oklahoma.

For information contact the sale chairman, Earl Owens, Rt. 4, Box 380, Choctaw, Okla. 78020, 405/390-2693; or the Oklahoma Charolais Breeders Association, Matt Kinslow, President, Box 193, Oklahoma City, Okla. 78101, 405/882-4575.

In the truest sense. Another unique aspect of the Breeder's Sale will be the display of the cattle end stage embryos. The cattle will be sold along the inside home in the center of the Wesson plantation on Friday, June 17. After a true show fleefry which will include puppies and all the fixings, the evening will light up with the hottest act on the country circuit, LeRoy VanDyke. In this two hour salute to Charolais will be the nation's most popular singing group, the New Christy Minstrels. Putting the event together and acting as master of ceremonies will be the newest notch standup comedienne to come along in many years, Gwen McEwen.

After what will be a short night, the really big show will get underway Saturday morning, June 18, with the Grand Parade of the Charolais cattle narrated by manager Buzz Garey and Earl Mann, kicker for the world's best champion Oakland Raiders. Charolais breeder since college, Mann spends his off-season fully planning and engineering his breeding program on his farm in Minnesota with the same stability he plans a kick on the gridiron.

Following the Grand Parade, George Mores will take over the reins at noon and pound his gavel, introducing another first for the breed which began the beef cattle revolution — Charolais.

"Never before have I had the opportunity in the sale management business to walk into some of the leading Charolais herds in the country and pick any animal I wanted that would fit our strict breeding and quality requirements," stated Garey. "The cattle consigned to this first Breeder's Sale will be dedicated to the Litter family, can only be described as representing the breed's finest pedigree."

Stuph & Thangs

(CONT. FROM PAGE 1)

Carter's official family would be the first to embrace Jimmy enough to get the sack and right now it would seem that Dr. Kennedy and UN Ambassador Andrew Young are in a dead heat for this honor. Kennedy has not only got all the diabetes & fatso types angrier up, but now he plans to eliminate the use of antibiotics in subtherapeutic amounts in animal & poultry feed without an order from veterinarians on the basis that he

supposes it might be possible this feedin' of antibiotics might develop some strains of infectious bacteria or germs immune to the effectiveness of antibiotics. Since use of antibiotics as feed additives in subtherapeutic amounts has been going on 37 years, and this has not happened, it puts Kennedy's conclusions into a framework of pure guatemalization and his rather lame excuse is that it fits his idea of a "social" goal. Which seems like a poor substitute for a scientific fact.

TH: Ross & Daughters got to figgerin' out what the effect of a ban on saccharin might be, when Dr. Slosh Beerbaum says he figures it's got rich off the theng, Slosh who had considerable experience on both sides of the street in the old bootleg days figures the same theng will sure work this time. If the FDA leaves saccharin in as a single-ingredient drug available without prescription the bootlegger's problem would be much simpler than it was when a feller had to have a still, mash, fruit jars or crocks & bottles when he was servin' the public with booze or beer. This time the chief ingredient will be much easier come by than alcohol used to be in the Old Days.

Slosh figures if he developed a crowd of people who like a little antartainment with their drinks the old Spakoesy may come back. However, he figures this kind of overindulgence is necessary, since he can fix up a simple deal with someone to make the body pop and leave out the sugar and folks will come by and pick up what they want, ice cream, candy, cookies, etc., will be easy to load up with legal saccharin picked up at the local drug store.

According to Slosh this theng might grow into quite a big household industry, and you could probably hire folks to make up sweat stuph at home and make considerable side money as cookie & candy makers and insofar as body pop is concerned there ain't really any good reason why people can't start puttin' out Coka, 7 Up or Dr. Pepper without sugar and the parson drinkin' it could add his own sweetener just like coffee or tea.

Slosh says he hopes the body pop people don't figger this angle out and get together with the saccharin makers, because if the saccharin makers started puttin' out saccharin pills in aiaz to fit 10 or 12 ounce bottles and bigger ones for the large economy size sugarless bottles, it will sure torpedo any chance he has to get rich as saccharinleggar.

Seminole Tribe Selling 3,900 Head June 11

Moore Haven, Fla. — The Seminole Tribe of Florida, Inc., Brighton and Big Cypress Reservations will offer 3,900 head of steer and heifer calves in a sale June 11, at the Brighton Community Center, Brighton Reservation, Florida. The sale will include 1,500 Bradford and Hereford steer calves and 1,000 Bradford and Hereford heifer calves from the Brighton Reservation.

Ever thine, The Edlitar.

P.S.: Uncle Dunk figures you are not be surprisid at Andrew Young's shillily to mess around in the affairs of other countries, after all he served a three-year hitch with the National Council of Churches, which got to be tops for trainin' agitators. Dunk says Carter's handlin' of the Korean flap with Gen. Singlaub demonstrates how tough he can get, when the other feller can't hit back. Dunk says it's haase over how to bail out Social Security rambls him of the time President Kennedy asked the farmers to vote for a schama of Government intervention in the grain business and we asked a grain man whether they were ally enough to stick their heads in the noose. He said, sure they'd vote for it and the reason was that none of 'em did not have somebody, often next of kin, gittin' a Govmint check of one kind or another, a pension, or th' like, and they had been told by the USDA grapevine that they better vote "right" or else! Th' same logic applies today, with about 20% of the population in some kind of Govmint pension, Social Security or other program — Thassal, Brother!

Non-Livestock Groups Endorse Referendum

(CONT. FROM PAGE 1)
The largest market for corn is livestock. Unfortunately, low cattle prices the past few years... reduce the consumption of corn by cattle. However, inspection of the Beef Referendum should help cattlemen, which in turn would help our members.

Also supporting the Referendum are the National Grain Sorghum Producers' Association headquartered in Lubbock, Texas; 28 state Farm Bureaus; the American Soybean Association, Hudson, Ia., and 80 state and national beef and dairy associations.

O. J. Barron, Jr., chairman of the Beef Development Taskforce, said the support of the Referendum by such a diverse group of agricultural organizations "shows that it's not just cattle producers who have a stake in this program—it's all of agriculture. A healthy, profitable beef industry is good for all of us."

The Referendum will allow the nation's cattlemen to vote on establishing a vastly improved beef research, promotion and consumer education program. Registration is set for June 6-17, and voting for July 5-15.

Farm Bureau To Seek OSHA Repeal
(CONT. FROM PAGE 1)
The only logical solution to the rapidly increasing number of senseless regulations, the errant administration, and the inflationary cost of the out-of-control federal agency, Chaloupka said.

OSHA has issued a number of regulations directly affecting agriculture. These include rules pertaining to wearing of protective clothing in fields where agricultural chemicals have been applied, farm labor housing standards, livestock safety and farm equipment shielding. Proposed regulations deal with field sanitation and cotton dust standards.

Chaloupka said the main issue is "freedom from unwarranted interference" by the federal government. He said the Fourth Amendment to the U.S. Constitution guarantees the right of citizens against unreasonable searches and seizures.

He claimed that OSHA inspectors enter private premises "without a warrant, without probable cause, and arbitrarily impose fines administratively without recourse to a trial by jury. Basic rights guaranteed by our Constitution are flagrantly violated."

The Farm Bureau is seeking to get a number of Congressmen to co-sponsor the Symms Bill as a means of gaining serious consideration of the proposed legislation.

Citizens and organizations who feel as we do on this issue are urged to join the fight," Chaloupka said.

All-American Junior Hereford Field Day Plans Complete For July 28-29 Affair At Granite Hills Hereford Ranch

Complete plans for the staging of the 1977 All-American Junior Hereford Field Day at Granite Hills Hereford Ranch, Llano, Texas, have been announced by officials with the American and Texas Junior Hereford Associations. The two day national event is expected to draw several thousand people from throughout the United States.

Activities will commence at 1:00 p.m. Thursday, July 28, with the regular Texas Junior Hereford Association public speaking contest and selection of the 1977-78 Texas Hereford Queen. By mid-afternoon, participants will turn their attention to the commercial feeder calf evaluation program to be headlined by USDA Livestock Marketing Specialist, Fred Williams Jr., Washington, D.C. Williams will utilize several of the Granite Hills commercial calves to explain the proposed changes in feeder calf grading now being

studied by the industry. Producers will have an opportunity to provide additional input during this portion of the program as a part of the open discussion being planned.

Also on tap for the first afternoon will be an informal style gathering of the American Hereford Auxiliary, as well as the preliminary rounds of competition in the National Junior Hereford Showmanship contest. Champion Hereford showmen from thirty states are expected to vie for the chance to advance to the showmanship finals. Thursday afternoon's program will also focus on the Granite Hills management and breeding programs with a tour through several of the registered and commercial breeding pastures scheduled for the late afternoon hours. The sponsored dance will round out the first day of the program.
The second day's activity begins with coffee and donuts for the early arrivals courtesy of the Ralston Purina Company, prior to the 8:30 a.m. program start. The main thrust of the Friday morning program will be the Hereford judging contest featuring five classes including a post-of-three bulls class and a post-of-three heifers class. Basic Total Performance Records will be provided to the contestants in each class for their use in evaluation. Prior to the contest a session detailing the use of performance records will be staged using three Guellette Hills cow families to demonstrate differences associated with varying levels of performance.

The Friday afternoon program will commence with comments from the hosts about the general ranch operation and remarks from American Hereford Association's Executive Vice-President, H. H. "Doc" Dickason. Special guest speaker will be Chuck Schroeder, former AJHA President and partner in the Schroeder Cattle Co., Palsade, Neb. One of the highlights of the second afternoon will be the display concerning "Genetic Management with a Purpose," as in depth look at the Granite Hills breeding program. The leading Granite Hills sire now in service and their progeny as well as information concerning their individual performance data will be the topics of discussion. The program will conclude with the National Showmanship finals and the announcing of the various judging awards.
Persons planning to attend are urged to confirm lodging reservations through the AJHA Junior Department as early as possible.

HEREFORD ASSOCIATIONS STUDYING POSSIBILITY OF BREEDS MERGER

(CONT. FROM PAGE 16)
The consolidation idea, there have been no formal negotiations between the policy making bodies of the two associations.
Neither Board of Directors took votes for or against the idea to consolidate the two existing major beef breed registry organizations and organize a totally new association.
Both associations' Directors authorized immediate and concurrent mail surveys of their separate memberships throughout the United States to obtain breeder comments that may help the AJHA and APHA Directors decide if future discussions or negotiations on the subject are to be held.
The associations' memberships are not being asked to vote for or against any specific proposal at this time, but only to consider the advantages and/or disadvantages of the concept of a consolidation of the two associations into a "read new association."
Should a consolidation program be agreed upon by the Boards of Directors of the two associations at some future date, the by-laws of each association requires the memberships to vote their approval or disapproval of any specific consolidation proposal at their separate annual meetings or at special membership meetings called for consideration of this matter.
Member-breeders of the AJHA and APHA are being asked to return their self-surveys to their respective association offices as soon as possible after studying the contents of the letter being mailed to them.

CCC Advance 7809, above, a top performing bull from Cooke County College's registered Hereford herd, in which a three-fourths interest was recently sold to Douthitt Ranch Co., Hearletta, for \$1,500.

Douthitt Ranch Co. Buys 3/4 Interest In Cooke Co. Bull

Galveston, Texas — Cooke County College recently sold three-fourths interest for \$1,500 in a Feb. 10, 1978 Hereford bull, CCC Advance 7809, to A. G. Douthitt Ranch Co., Hearletta, Texas. Douthitt Ranch Co., a long-time commercial Hereford operation, is now adding a registered Hereford herd and has been one of the major buyers in recent registered Hereford sales, including purchase of the top selling cow and others in the recent Weldon Edwards sale at Clyde.

CCC Advance 7809 had an adjusted 205 day weight of 784 pounds with a minimum of creep feed, and a weaning ratio of 129.2 percent in the college herd. His adjusted 365-day weight was 1,281 pounds and index 119.7. His actual 365-day weight was 1,205 pounds. The bull gained 500 pounds in 140-day of trial gain test for an ADG of 3.6 pounds at the college's test center.

This bull was one of the first sales from the college's registered Hereford herd started in the fall of 1976 with purchase of 30 foundation cows from the Teepee Ridge Ranch at Davis, Okla.

About half of the cows were bred to TPR Miesch D4, a son of Winrock D4, and the others to HJH Advance C808, sire of this bull. The C808 bull was sired by HJH Advance A118. Teepee Ridge Ranch owners Dr. and Mrs. David Eggenberg had bought the C808 bull in the 1974 Cooper-Holden sale, where he was the top performing yearling and one of the top selling bulls of that sale.

Grand dam of the CCC Advance 7809 bull was PL Highland Lass 716, one of the top producing cows in the Cooke County herd. She has been a consistent performer, whose progeny includes TPR Jet Malt 122, dam of this bull and top performing heifer calf in the herd in 1971; the top performing heifer calf in the Cooke County herd in 1976 and it's top performing bull calf this year.

Douthitt Ranch Co. will have possession of CCC Advance 7809 from Dec. 15 to Sept. 15 each year, and the college from Sept. 15 to Dec. 15. He will be used both for natural and artificial service. The college still has six half-brothers to this bull and some half-sisters to him for sale. CCC Advance 7809 semen will also be available. Interested persons may contact T. J. Davidson, Agriculture Department, Cooke County College, P. O. Box 815, Galveston, Texas 77540, or phone 817/668-7781.

Major Scholarship Increase Announced At Regular Meeting

(CONT. FROM PAGE 1)
that the organization was increasing the number of annually presented \$4,000 scholarships from 30 to 50.
"With this 68 percent increase in our four-year program, we will have 18 students in colleges and universities this fall," Freeman explained. "These students represent a \$320,000 commitment by the Livestock Show and Rodeo."
Addressing the Show's annual membership meeting in the Astroturf, Freeman said "we are pleased to be able to announce a significant increase in the program for the second straight year. This expansion was made possible by the Show's continued success which is a direct reflection of the tremendous amount of public support which is received."

The Houston Livestock Show and Rodeo has long been recognized for its fine agricultural scholarship program. The program, initiated in 1957, is now in its twentieth year.
Freeman, re-elected by the association's board of directors, reported that the 1977 show had set records in nearly all categories. He cited the all time attendance record of 469,785 for rodeo and 745,436 for general admission.
"This show marked the first time that we have gone over the 700,000 mark," he noted. "Savon new world's record auction prices were established for champion animals in the junior and market auctions."

René Robert Cavaller de La Salle led an expedition across the Atlantic in 1684 to colonize New Orleans. Unfortunately his campaign failed. He missed New Orleans and landed in Texas. His faulty sense of direction was not overruled by his followers who eventually killed him.

The right campaign in the wrong place can kill you.

Many a great campaign has died because it didn't get to the right place or the right people. When you advertise with BPA-audited (Business Publication Audit of Circulation, Inc.) magazines you know exactly whom you're reaching. BPA publications regularly update circulation figures, so your message gets to the people who can make your campaign a success.

BPA We count, so your ads will.
The BPA-audited magazine reached the place for the ad, with captive and productive consumers, for the right people and the right message.

Jones Charolais Bull
Scores Top Record
Sir Admiral, full-French Charolais son of Admiral F413, owned by Buddy Jones, recently completed a 142 day feed test at the American Beef Cattle Evaluation Center at Ringling, Okla. The test was supervised by Hollis Dickey and Clyde Reed both of whom are nationally known livestock specialists, and using the new electric pinpointer which is the most modern and accurate of all tests.

Sir Admiral had a 205 day weaning weight of 770 lbs. off grass only and entered the test at eight months—21 days of age of 860 lbs. His yearling weight was 1380. The first 50 days he averaged 5.71 and completed the test weighing 1540 lbs. for an average daily gain of .489 under frame winter condition. More important, his feed conversion of 8.98 is believed to be a Charolais record. With such computerized equipment as the pinpointer, conversion figures are not disputable because you know exactly what each animal eats every 24 hours.

Sir Admiral's sire is one of the few A.I. bulls which is still alive and in service. Admiral F413 is currently serving the Jones herd in Amarillo, Texas, and semen is available.

Toppling the sale was a cow with heifer calf at side by George Boy purchased by Brenda Brangus, Round Top, Texas for \$2,150.
